

Maybank

Malayan Banking Berhad (3813-K)

REQUEST FOR INFORMATION (RFI) FOR DATA CENTER DESIGN & MIGRATION FOR MAYBANK GROUP

The Maybank Group has an extensive network of 2,400 offices in 20 countries around the world with over 47,000 employees serving more than 22 million customers.

Maybank is now seeking for an established partner to design and migrate its primary and secondary data centers. This exercise will cover overall IT equipment but is not limited to network & security components, storage, mid-range machines and servers.

This exercise should enable the Bank to minimize operational risks, address future growth & demand (scalability) and optimize costs. The strategy adoption and method should leverage on industry best practices and support the Group's dynamic business growth.

-
- Interested parties should submit their requests for the RFI via email to **strategicprocurement_IT@maybank.com.my** using their company email address. Requests from public domain emails will not be entertained.
